

Gates-A13™* brand

KEY FEATURES:

- Excellent pest resistance for most North American environments
- Highly suitable for 4-5 cuts of high quantity and quality hay production
- "5" dormancy will often allow for a late fall harvest
- Highly suitable to heavy soils where root rots are a concern
- Excellent regrowth allows for aggressive harvest management
- Thrives on best management practices for bigger 2nd, 3rd, 4th, and 5th cuttings
- Responds to intensive alfalfa management

| Agronomics | |
|-------------------------|-------|
| Fall Dormancy | 5.000 |
| Winter Hardiness | VH |
| Cutting Recovery | 9.000 |
| Forage Yield | 9.000 |
| Relative Forage Quality | 7.000 |

| Disease | |
|----------------------------|--------|
| Disease Rating Index (DRI) | 34.000 |
| Anthracnose Race 1 | HR |
| Aphanomyces Race 1 | HR |
| Aphanomyces Race 2 | R |
| Bacterial Wilt | HR |
| Fusarium Wilt | HR |
| Phytophthora Root Rot | HR |
| Verticillium Wilt | HR |

| Insects | |
|-----------------------|-----|
| HR Potato Leaf Hopper | N/A |
| Pea Aphid | R |
| Blue Aphid | HR |
| Spotted Aphid | R |
| Root Knot Nematode | HR |
| Stem Nematode | MR |

IMPORTANT: Characteristic scores provide key information useful in selecting and managing products in your area. Information and ratings are based on comparisons with other products sold by Seed Consultants, Inc.

Information and scores are assigned by Seed Consultants, Inc. and are based on period-of-years testing through 2017 harvest and were the latest available at time of printing. Some scores may change after 2017 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision.

StandFast™ is the trademark of PGI Alfalfa.

Roundup Ready™ is a registered trademark used under license from Monsanto Company.

Do not export alfalfa seed or crops containing Roundup Ready™ technology including hay or hay products, to China pending import approval. In addition, due to the unique cropping practices, do not plant this product in Imperial County, California.

Always Read and Follow Pesticide Label Directions. Alfalfa with the Roundup Ready™ technology provides crop safety for over-the-top applications of labeled glyphosate herbicides when applied according to label directions. Glyphosate agricultural herbicides will kill crops that are not tolerant to glyphosate. ACCIDENTAL APPLICATION OF INCOMPATIBLE HERBICIDES TO THIS VARIETY COULD RESULT IN TOTAL CROP LOSS.
